

BE (COMP) SEM VII

Sr. No.	Course Code	Course Name	Comment
1.	CSC701	Digital Signal and Image Processing	Analysis of different types of discrete data transforms.
2.	CSC702	Mobile Communication & Computing	Understanding mobile evolution techniques.
3.	CSDLO7032	Big Data Analytics	Introduction to various techniques to analyse big data.
4.	CSDLO7033	Robotics	Analyze the different motion of the robots.
5.	ILO7015	Operation Research	Understand the mathematical tools to solve optimization problems.
6.	ILO7016	Cyber Security and Laws	Implementation of different security algorithms to secure network.

BE SEM VIII

Sr. No.	Course Code	Course Name	Comment
1.	CSCDLO 8013	Adhoc Wireless Network	Understand routing protocols for wireless network.
2.	ILO8026	Research Methodology	Design of research approaches.
