

BE (ELECTRICAL) SEM VII

Sr. No.	Course Code	Course Name	Comment
1.	EEC701	Power System - III	Analysis of power system operation.
2.	EEC702	Drives and Control	Understanding of various speed control techniques.
3.	EEDLO7033	Industrial Controller	Introduction to PLC and its interfacing.
4.	ILO7015	Operation Research	Understand the mathematical tools to solve optimization problems.
5.	ILO7016	Cyber Security and Laws	Implementation of different security algorithms to secure network.

BE SEM VIII

Sr. No.	Course Code	Course Name	Comment
1.	EEC801	Design, Management and Auditing of Electrical System	Design of electrical distribution network.
2.	EEDLO 8043	Power System Modelling and Control	Understanding power system stability and control.
3.	ILO 8026	Research Methodology	Design of research approaches.
