

BE (ETRX) SEM VII

Sr. No.	Course Code	Course Name	Comment
1.	ELX701	Digital signal Processing	Design of different types of digital filter.
2.	ELXDOL7032	Advance Networking Technologies	Understand of wireless network technologies.
3.	ELXDOL7033	Robotics	Analyze the different motion of the robots.
4.	ILO7015	Operation Research	Understand the mathematical tools to solve optimization problems.
5.	ILO7016	Cyber Security and Laws	Implementation of different security algorithms to secure network.

BE SEM VIII

Sr. No.	Course Code	Course Name	Comment
1.	ELX801	Internet of Things	Analyze the web application of data.
2.	ELXDOL 8044	Digital Image Processing	Implementation of different techniques to process image.
3.	ILO 8026	Research Methodology	Design of research approaches.
