

## SE (IT) SEM III

Sr. No.	Course Code	Course Name	Comment
1.	ITC301	Applied Mathematics III	Study of Laplace Transform and complex number.
2.	ITC302	Logic Design	Analysis of combinational and sequential circuits.
3.	ITC305	Principal of communications	Analysis of different modulation techniques

## SE SEM IV

Sr. No.	Course Code	Course Name	Comment
1.	ITC401	Applied Mathematics IV	Analysis of distributive data using different methods.
2.	ITC402	Computer Networks	Implementation of different routing algorithm.
3.	ITC403	Operating Systems	Understanding of different management system in OS.
4.	ITC404	Computer Organization and Architecture	Introduction to microprocessor and interfacing with various devices.
